These cells are centered in the precise geometric centre of your body, which is slightly above the perineum. There's a little piece of skin there, and even though there's not a physical opening, there is actually an energetic opening. That's where the central tube runs through your body, coming out through the ***crown chakra*** at the top of your head.

The Star Tetrahedron models the energetic body of the human being, the blending of Heaven and Earth, Male and Female, and was known in the esoteric knowledge of Ancient Egypt as the **'Mer-Ka-Ba***

The Bible later makes mention of a third type of angel found in the Merkaba called "*Seraphim*" (lit. "burning") angels. These angels appear like flashes of fire continuously ascending and descending. These "Seraphim" angels powered the movement of the chariot. In the hierarchy of these angels, "Seraphim" are the highest, that is, closest to God, followed by the "Chayot", which are followed by the "Ophanim." The chariot is in a constant state of motion, and the energy behind this movement runs according to this hierarchy. The movement of the "Ophanim" is controlled by the "Chayot" while the movement of the "Chayot" is controlled by the "Seraphim". The movement of all the angels of the chariot are controlled by the "Likeness of a Man" on the Throne.
